

Calibration Services - 2027 Price Sheet

Effective January 1, 2027

PLANNED 2027 CLOSURES

May 27-31 (Thursday-Monday) | December 22-27 (Tuesday-Sunday)

Torque Wrench Calibration

Foot-pound torque wrenches calibrated using a three-transducer system.

Torque Range	Price
0-100 ft-lb	\$30.00
Over 100-250 ft-lb	\$35.00
Over 250-400 ft-lb	\$40.00
Over 400-600 ft-lb	\$45.00
Over 600 ft-lb	Not accepted

Torque Screwdrivers & Impact Torque Tools

Inch-pound capable system; maximum accepted range is 1,000 in-lb.

Tool	Price
Torque screwdriver	\$30.00
Impact torque tool	\$40.00
Over 1,000 in-lb	Not accepted

Pressure Gauge Testing

11-point test, increasing and decreasing pressure, up to 22,000 psi.

Gauge Type	Price
Standard pressure gauge (nitrogen, up to 22,000 psi)	\$30.00
Oxygen-clean pressure gauge	\$35.00
Compound pressure gauge (positive and negative pressure)	\$40.00
Oxygen-clean compound pressure gauge	\$45.00
Pressure module - standard or vacuum	\$35.00
Pressure module - compound	\$45.00
Differential pressure tester	\$65.00
Over 22,000 psi	Not accepted

Thread Gauge Calibration

Straight Unified National (UN) or metric gauges up to 2 in major diameter are standard. Other forms and larger gauges are special.

Gauge Type	Criteria	Price
Standard thread plug gauge	UN internal-thread classes 2B/3B; metric; up to 2 in	\$35.00
Standard thread ring gauge	UN external-thread classes 2A/3A; metric; up to 2 in	\$40.00
Oversized or special	Over 2 in or non-standard thread forms	\$70.00 baseline*

*Baseline price; final price may increase based on size, form, condition, or setup complexity.

Dimensional & Mechanical Tools

Tool	Size / Type	Price
Digital caliper	0-8 in	\$30.00
Digital caliper	Over 8-12 in	\$35.00
Digital caliper	Over 12-24 in	\$40.00
Digital caliper	Over 24-40 in	\$50.00
Outside micrometer	0-4 in	\$30.00
Outside micrometer	Over 4-6 in	\$35.00
Outside micrometer	Over 6-12 in	\$40.00
Micrometer standard	-	\$15.00
Crimper	Standard	\$30.00
Crimper	Hydraulic or pneumatic	\$65.00
Dial indicator	Flat rate; complex units quoted case-by-case	\$30.00
Digital/dial indicator (including Digimatic)	-	\$30.00
Mechanical thickness gauge	-	\$30.00
Digital thickness gauge	-	\$30.00
Digital depth gauge	-	\$30.00
Height gauge	0-6 in	\$30.00
Height gauge	Over 6-12 in	\$35.00
Height gauge	Over 12-24 in	\$40.00
Height gauge	Over 24-36 in	\$50.00
Protractor or level	-	\$50.00

Electrical & Environmental Tools

Tool	Price
True RMS multimeter (base, 10-function)	\$65.00
Temperature probe verification add-on	+\$15.00
True RMS clamp meter (base)	\$40.00
Temperature probe verification add-on	+\$15.00
Megohmmeter	\$85.00
Insulation tester	\$75.00
Insulation multimeter	\$75.00
IR thermometer	\$50.00
Milliohm meter	\$85.00
LCR meter	\$55.00
Process meter	\$85.00
Milliamp process clamp meter	\$65.00
DC regulated power supply	\$45.00
Electrical tester / AC voltage tester	\$40.00
Battery capacity tester	\$45.00
Battery charger	\$45.00
Wrist strap tester	\$35.00
Phase rotation meter	\$45.00
Oscilloscope	\$125.00
Hipot tester	\$130.00
Tachometer	\$45.00

Environmental & Thermal Equipment

Item	Price
Temperature/humidity data logger	\$65.00
Temperature probe attachment	\$15.00
Oven	\$65.00
Light meter	\$45.00
Dew point meter	\$45.00

PosiTector Attachments

Customer must supply a compatible reader. The reader is not included in the calibration and incurs no charge.

Attachment	Price
Coating thickness gauge	\$45.00
Surface profile gauge	\$45.00
Shore hardness tester	\$45.00
Replica tape reader	\$45.00

Force, Torque & General Measurement

Tool	Price
Force gauge / pull scale	\$50.00
Tensiometer (charting included)	\$150.00
Proving unit	\$40.00
Dynamometer	\$75.00
Torque tester (up to 600 ft-lb)	\$150.00

Scales & Welders

Item	Price
Gram scale	\$35.00
Full-size standard scale	\$45.00
Aircraft / platform scale	\$125.00 per platform
Hanging scale / spring scale	\$35.00 or \$45.00 by capacity
Welder	\$125.00

Set-Based Calibration (Per-Item Pricing)

Set Type	Rate	Minimum
Pin gauge set	\$3.00 per pin	\$15.00 (up to 5 pins)
Gauge block set	\$8.00 per block	\$15.00 (single block)

Expediting Fees

Expediting is subject to availability. The fee is an additional charge calculated from the standard calibration price of each expedited unit.

Turnaround	Additional Fee
Same day	+200% of unit calibration price
Next business day	+150% of unit calibration price
Two business days	+100% of unit calibration price

Charting Services

Charting is available upon request and is billed at the shop labor rate of \$120.00 per hour.

Out-of-Tolerance Items & Decision Rule

Items found outside the applicable manufacturer's specification or customer-provided tolerance are reported as out of tolerance and charged at the full standard calibration price. Unless otherwise agreed, conformity statements use simple acceptance without guard banding. Results and item status are documented on the calibration certificate; an out-of-tolerance label may be applied when appropriate.

Repair & Adjustment Authorization

We will contact the customer for authorization before performing repairs or adjustments. Authorized labor is billed at \$120.00 per hour, plus applicable parts. Any additional calibration or verification required after repair or adjustment will be documented on the certificate.

General Pricing Terms

Prices include the standard calibration service and certificate unless otherwise quoted. Parts, repairs, special fixtures, shipping, and customer-requested services are additional. Capability and final pricing may depend on manufacturer requirements, condition, range, accuracy, available specifications, and required setup. We will contact the customer before proceeding when the quoted price changes.

CONTACT	2027 CLOSURES
702-523-3587 operations@calibrationsvs.com	May 27-31 (Thursday-Monday) December 22-27 (Tuesday-Sunday)

Prices effective January 1, 2027, and supersede all prior pricing.
